

Advanced Sculpture Writing Prompt

Writing is an important part of understanding your art practice. This assignment will be the first phase of eventually completing a refined artist statement. For this exercise, **handwrite** three pages detailing the interests that you explore through your art.

Do not:

Think of this as an essay.

Worry about making a case for your statements, or justifying any of your interests, curiosities, or concerns.

Grant yourself the liberty to nerd out about what you like, and let it take you where it takes you. Think of this as a journal entry. It does not have to be perfect (just try to make it legible). If you feel excited or passionate about what you are writing, you are on the right track.
